

## Sodium bicarbonate – Bicar Tec 0/3 FF

**General description:** Bicar Tec 0/3 FF is a white crystalline powder, alkaline reaction, sparingly soluble in water.

**Qualitative parameters of the product:**

Parameters	Units	Specification
NaHCO <sub>3</sub>	%	min. 98,0
Free flowing density	g/l	900 - 1200
Particle size		
< 0,25 mm	%	min. 98
< 0,045 mm	%	min. 75

**Packing:** It can be packed in 25 kg PE bags, 40 bags on one-way pallet (1000 kg net) wrapped around by PE film.

**Applications:** Flue gas cleaning in hazardous waste incinerators.

**Storage:** Store in covered dry places, in undamaged original bags at temperatures to 35°C and humidity 30 to 70%.

**Date of update:** 29. 07. 2014
