

Sodium bicarbonate – Bicar Z 0/50

General description: Bicar Z 0/50 is a white crystalline powder, alkaline reaction, sparingly soluble in water.

Qualitative parameters of the product:

Parameters	Units	Specification
NaHCO ₃	%	min. 99,0
Na	%	min. 27,0
Pb	mg.kg ⁻¹	max. 10
As	mg.kg ⁻¹	max. 2
Hg	mg.kg ⁻¹	max. 0,1
Cd	mg.kg ⁻¹	max. 2
NaNO ₂	mg.kg ⁻¹	max. 15
F	mg.kg ⁻¹	max. 150
pH (5% aqueous solution, 20°C)	%	< 8,60
Free flowing density	g/l	800 - 1300
Particle size		
< 0,5 mm	%	min. 90

Packing: It can be packed in 25 kg PE bags, 49 bags on one-way pallet (1225 kg net) wrapped around by PE film.

Applications: As an feed additive (feeding mixtures and premixes, acidifier), or to supplement feed ration directly on the trough, especially for cattle and other farm animals.

Storage: Store in covered dry places, in undamaged original bags at temperatures to 35°C and humidity 30 to 70%.

Date of update: 29. 07. 2014
